Printers/MFP's

Katun significantly expands Color Toner offering: Remanufactured Cartridges for use in HP Color Printers/MFP's

Models: LJ 1600/2600/2605, CM 1015/1017 MFP, LJ 3600/3800, CP 3505, LJ 4700, CM 4730 MFP

Benefits:

- ◆ **One-Stop Shop for High-Quality Refurbished HP Color Toner Cartridges**
Katun is truly a one-stop shop for remanufactured color toner cartridges. With a broad offering of high-quality remanufactured toner cartridges for existing “core” HP color printers/MFPs and a significantly expanded line of toner cartridges for current HP applications, Katun is the only choice!
- ◆ **Highest Quality Ensures Customer Satisfaction**
Like all Katun remanufactured toner cartridges, these Katun Performance color products for HP applications offer the highest, most consistent remanufactured toner cartridge quality possible, ensuring end-user satisfaction.
- ◆ **The Katun Performance Brand Provides Unmatched Value!**
The Katun Performance brand represents a commitment by every Katun employee to provide customers with the highest levels of quality, service, and value:
 - Quality** – Implementation of strict processes and procedures to deliver consistent, reliable product quality.
 - Service** – Listening and partnering with you, our customers to better meet your needs while delivering responsive and dependable support.
 - Value** – Delivering excellent overall value through optimal product quality, cost savings, an extensive product offering and exceptional service and support.

◆ The Katun Difference is Easy to Appreciate

- Katun remanufactured color toner cartridges fit, function and install the same as the OEM cartridges, making the transition from OEM to Katun Performance seamless for the consumer.
- Like OEM toner, Katun color toner is chemically produced and specifically matched to provide optimal color reproduction for business applications.
- Katun uses only virgin OEM cores.
- Toner and drums have been specifically designed and thoroughly tested to meet Katun's high standards for product performance.
- All remanufactured Katun Performance products are developed and remanufactured according to ASTM, STMC and ISO quality standards.

HP Color LJ 1600/2600/2605, CM 1015/1017 MFP Series

In 2005, HP introduced a range of affordable, network ready, and reliable color printers/MFP's all designed to use the same color toner cartridges - this range of machines is commonly referred to as the 2600-series. HP 2600-series machines produce business color prints at a relatively inexpensive cost.

With an estimated installed base of more than 1.3 million, the 2600-series represents the single largest population of color printers - larger than than the installed base of all other competitors combined. Roughly 45% of the placements exist in Europe while North America accounts for more than 30%.

Machine Overview

Model	Intro Date	Mfg Status	Markets	Function	Segment	PPM Black	PPM Color
Color LJ 1600	2005	Active	WW	Print	Home, Small/Med Bus	8	8
Color LJ 2600	2005	Active	WW	Print	Home, Small/Med Bus	8	8
Color LJ 2605	2005	Active	WW	Print	Home, Small/Med Bus	12	10
Color LJ CM1015/ 1017 MFP	2005	Active	WW	Print, Copy, Scan	Home, Small/Med Bus	8	8

Remanufacturing of color toner cartridges is a complex process, often requiring more than twice as many steps as "stand alone" black cartridges. The 2600-series cartridges certainly fit this category. Disassembly, replacement of critical to function components and reassembly can be difficult and time consuming. The 2600 cartridge design requires remanufacturers to employ rigid processes and advanced technologies in order to deliver consistent quality, cartridge after cartridge.

While there have been refurbished 2600-series cartridges available for some time, Katun delayed entering the market until we were confident the necessary processes and procedures were in place to deliver a consistent quality product for this significant application.

Product Characteristics

OEM PN	Katun PN	Color	Finish	Yield*
Q6000A	33953	Black (K)	Gloss	2500
Q6001A	33954	Cyan (C)	Gloss	2500
Q6003A	33956	Magenta (M)	Gloss	2500
Q6002A	33955	Yellow (Y)	Gloss	2500

* OEM stated yield; actual yield may vary depending on machine application and usage conditions..

HP Color LJ 3600, 3800, CP 3505 Series

In 2005, HP introduced the Color LJ 3600 and 3800-series printers. With recommended monthly print volumes ranging from 1000 to 5000 prints, these color printers are best positioned to small and medium sized businesses or work groups. The CP 3505 was introduced in 2007 as a replacement to the 3800.

Machine Overview

Model	Intro Date	Mfg Status	Markets	Function	Segment	PPM Black	PPM Color
Color LJ 3600	2005	Active	WW	Print	Small/Med Bus	17	17
Color LJ 3800	2005	Discontinued	WW	Print	Small/Med Bus	22	22
Color LJ CP 3505	2007	Active	WW	Print	Small/Med Bus	22	22

The HP Color LJ 3600, 3800 and CP 3505 applications all utilize the same 6000-page yield black (K) toner cartridge. However, for Cyan, Magenta, Yellow (CMY), the 3600 utilizes 4000-page toner cartridges, while the 3800 and CP3505 share the same 6000-page yield cartridges.

Product Characteristics

OEM PN	Katun PN	Color	Models	Finish	Yield*
Q6470A	33957	Black (K)	Color LJ 3600 / 3800 / CP 3505	Gloss	6000
